In this Privacy Statement ("Privacy Statement"), MITE3 informs you about the way in which MITE3 processes your personal data and what rights you have in this regard.

This Privacy Statement applies to every processing of personal data of the users of MITE3. 'Personal data' means any information about an identified or identifiable natural person. Our services and websites are not for children. If you are under 16 and want to use our services, a parent or guardian must assist you.

Article 1 Controller

MITE3 is the 'controller' regarding processing data of users if they themselves determine the purpose and means of data processing. Examples include data processing for marketing purposes or offering its products and services.

This Privacy Statement does not apply to the extent that we process personal data as a processor in the performance of our services. A 'processor' is an organization that processes personal data on behalf of the responsible party. If we are the processor, we enter into a processing agreement with the responsible party. The processing agreement regulates data security, confidentiality, and your rights, among others. For those cases, MITE3 refers you to the privacy statement of the respective responsible party.

Article 2 Explanation of personal data and purpose limitation

Purposes and data categories

MITE3 processes your personal data for the purposes described below. We use data received from you, and data collected by ourselves, such as data about your visit to our websites.
